COMMUNITY BUILDERS TRIBUTE

Raising funds for robotic surgery

On April 17, the Community Builders Tribute raised a staggering \$550,000 in support of Humber River Health's innovative Robotic Surgery Program. In addition to the essential funds, the Toronto-based event also featured keynote speaker Dr. Lazar Klein and honoured one of the hospital program's pioneering champions, Dr. Jack Barkin. Recently retiring as urologist and surgeon at Humber River after a 42-year distinguished career, Dr. Barkin was cheered and applauded by the over-500 community members, healthcare professionals, government officials and supporters who were in attendance.
